Our representative partner in Scandinavia:

tel. **+47 918 31 769** e-mail: semulao@online.no

We promise our patients the best experience in treatment, with comfortable and pain free therapy.

The network of The Center's physicians, molecular biologists, managers, staff and researchers is a well connected web of bright minds.

We have several common goals:

- Creating a Regional Center of excellence in Dentistry, Aesthetic Surgery and Advanced Regenerative Medicine Technologies, while using its expertise in serving the global population, including patients, and medical institutions.
- To work on promoting high-quality standard therapy, and research in the field of regenerative medicine.

The doctors at The Center for Regenerative Medicine are highly trained specialists. They were trained in Norway (Oslo, Rikshospitalet University Hospital), and Japan (Nagasaki, Nagasaki University). All our physicians are multi-lingual (English, Italian, German, Japanese, and Russian).
